- Student Enrollment

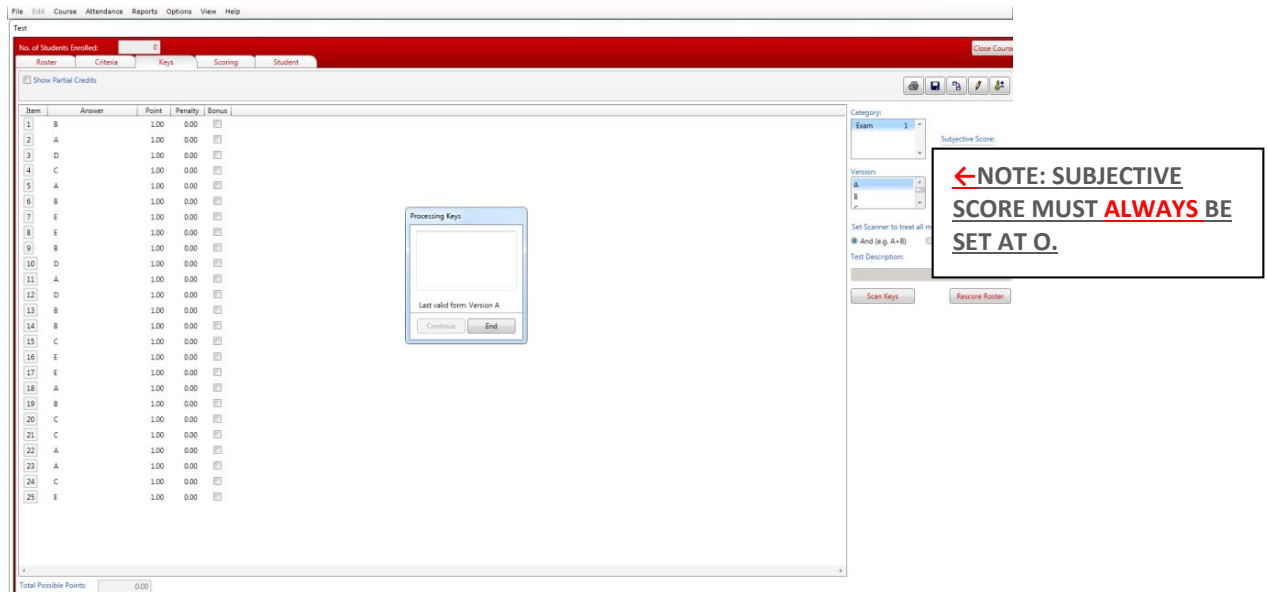

In order for ParScore to score a Scantron, it needs to have Enrollment Records for each student. The easiest way to create your student list is to use the Red Enrollment Form (**Scantron Form F-288-PAR-L**). Use this form for your first assignment, and follow the instructions for scanning in the “Scoring” section below, and be sure to select “Auto Enrollment” in your scoring options. If a student misses the first assignment, or you need to add a student later, you can enter their names manually. When you scan their test later, ParScore will not recognize the name or student ID, and will prompt you to add the student to the course manually

- Adding the Answer Key

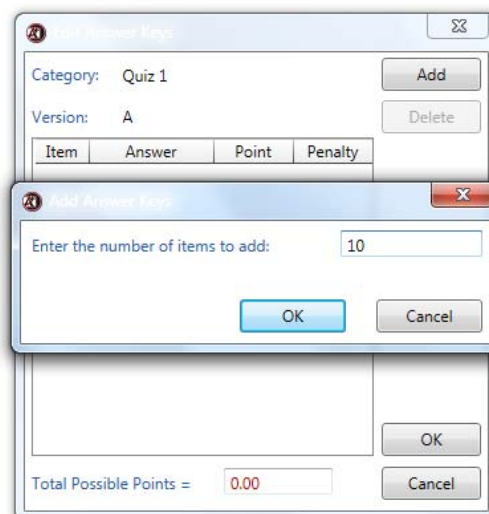

- Select the “Keys” tab
- Select the Category for the Answer Key you are adding (located on the right hand side of the screen)

Category Order	Category	No. of Columns	Possible Score	Add Subtotal Colur
1	Quiz	00	0.00	<input type="checkbox"/>
2	Midt	00	0.00	<input type="checkbox"/>
3	Exam	1	100.00	<input checked="" type="checkbox"/>
4	Labs	00	0.00	<input type="checkbox"/>
5	Essy	00	0.00	<input type="checkbox"/>
6	Rept	00	0.00	<input type="checkbox"/>
7	Xtra	00	0.00	<input type="checkbox"/>

- Make sure you have the correct answers and Test Form field (A, B, C, or D) marked. The test form indicates the version of the Answer Key. If you only have one version, be sure that only Version A is selected, and other versions are removed. **Please note: “Subjective Score” is only for essay points. “Subjective Score” should be blank, as we do not use forms with essay options. Any number besides ‘0’ in the “Subjective Score” section will cause inconsistencies with the grades, both on the test form and in the results**
 - Scanning the Key
 - Select the “Scan Keys” button (located at the bottom right side of the screen)

- ParScore will display an Edit screen for anything found invalid on the key. Select “End” when finished, on your Scanner’s LCD window
- Entering the Key Manually
 - Select the “Edit Answer Keys” icon in the upper right corner
 - Select “Add”
 - Enter the number of questions, select “OK”

- Enter each answer manually
